## Amvault CE Series

### TL15 Fire Rated Composite Safes

- The Amvault formed body has a total protective thickness of 3-1/2" enclosing a high density fire resistant composite material
- A reinforced drill resistant door frame protects the door and each individual bolt chamber from severe side attacks
- High strength adjustable shelves
- Two hour, 350° F Factory fire rating. Tested at Temperatures up to 1850° F
- Equipped with six to ten massive 1-1/2" diameter chrome plated solid steel locking bolts
- Equipped with a U.L. listed Group II key changeable combination lock. The Lock is protected by a massive drill shattering hard plate and two additional spring loaded devices
- An additional spring-loaded re-lock device protects lock against punch attacks
